Content Is Digital And Digital Is Content

You've just finished writing a fantastic new lead generation offer – such as an ebook -- that you'd like to email to a segment of your list. How can you better support that offer's success? First, promote it with a blog post; excerpt a chapter that can stand alone, and let blog readers know the excerpt they're reading is a small part of a larger ebook on the topic which they can download via the call-to-action in the blog post. Then give social media a heads up that pages 2, 5, and 8 in the ebook have

FAQ

There are PDF editors available for every platform and they come in all shapes and sizes.. The thing is that not all of us are looking for a PDF editor A lot of us simply need a PDF annotator and markup tool that will let us highlight important parts or add a comment/thoughts.. This is really useful when you are re-reading the PDF at a later point You don't have to go through the whole thing again and waste your valuable time.
